

# JUSTIN LUO

---

1568 AVENUE PL APT 4420, Atlanta, GA 30322 • (404)834-6676 • [justinluo1998@gmail.com](mailto:justinluo1998@gmail.com)

## Professional Summary

A great team player and very experienced working with consumer software. I am always looking to improve my programming skills and to build the next big app.

## Skills

- Strong UI/UX skills.
- Excellent experience in serverless architecture (AWS, Firebase)
- Experience working with many programming languages across many different platforms (Mobile App, Web, Databases etc.)
- Very fast learner
- Very flexible worker
- Good communicator and good leadership skills

## Work History

**Co-founder/CTO**, 05/2018 to Current

**Vezzy LLC** – Atlanta , GA

Vezzy is a second hand buy and sell app (available on the app store) with thousands of downloads and used widely by the Emory community. I was in charge of leading the tech team and building the iOS app. Demo admin account: (username: [justinluo1998@gmail.com](mailto:justinluo1998@gmail.com), password: pokemon100).

**Co-founder/CTO**, 03/2017 to 04/2018

**FetchMi LLC** – Atlanta , GA

FetchMi was a venture-backed technology startup co-founded by myself and a group of friends at Emory University. FetchMi aggregates service companies across a broad group of categories (e.g. educational and recreational services) and allows users to rate, message, and make payments directly. We used an MVC framework (Codeigniter) to build this website. This company no longer exists, but the GitHub is available.

**Co-creator/Developer**, 01/2017 to 05/2017

**Emory University** – Atlanta , GA

Working alongside five other friends, I built a course review site for my university's Chinese international students to view ratings and reviews for both courses and professors. I worked mostly on the front end using React. We are currently in talks with the school's technology department to implement this officially as a school wide course review system. This site uses the MERN stack. Currently under the domain: [professorsaid.com](http://professorsaid.com)

## Education

**Bachelor of Science**: Computer Science, Economics , 2020

**Emory University** - Atlanta , GA

Cumulative GPA: 3.67
